

Monmouth Heights

The homes in Monmouth Heights offer a range of well-priced single-family options, typically featuring smaller floor plans with under four bedrooms, making this one of the more affordable opportunities within Marlboro Township. Built in the late 1960s, homes come in a variety of styles with functional layouts, comfortable living spaces, and the potential for updates and customization over time, which many homeowners have taken advantage of.

Located in Marlboro Township with convenient access to Route 9, Monmouth Heights is known for its strong sense of community and standout amenity—the Monmouth Heights Swim Club. Originally built by Levitt & Sons, the swim club is exclusive to residents and remains a central part of neighborhood life, especially during the summer months. The location also provides easy access to shopping, dining, commuting routes, and is within reach of both New York City and the Jersey Shore.

If you live in Monmouth Heights, your children will attend Marlboro Township public schools, including Marlboro Elementary School, Marlboro Middle School, and Marlboro High School. The high school is part of the highly regarded Freehold Regional High School District, offering strong academics, extracurricular opportunities, and specialized programs.
